

# FSMA - PRODUCE SAFETY RULE

## BIOLOGICAL SOIL AMENDMENTS OF ANIMAL ORIGIN WORKSHOP

Join us November 16th through 18th, 10:00A - 2:00P PST  
Tuesday, Wednesday, and Thursday

**Registration link:** <https://www.eventbrite.com/e/biological-soil-amendments-of-animal-origin-virtual-workshop-registration-185036137067>

**Contact:** Harry Short: [Harry.short@oda.oregon.gov](mailto:Harry.short@oda.oregon.gov)

**Description:** The training will cover best practices of composting within the context of the Produce Safety rule, with perspectives from industry, cooperative extension, and regulatory agencies. It will include an overview on the Produce Safety rule and draft guidance to understand the current regulatory framework and requirements associated with the use of Biological Soil Amendments of Animal Origin (BSAAO) for covered produce on covered farms. The intent is to help regulated growers and related stakeholders understand how to comply with the current requirements, provide an update on the status of BSAAO Risk Assessment, associated research, and discuss what it means for the possible future of Subpart F provisions for the use of untreated BSAAO on covered farms.

**Target Audience:** Western region farmers, educators, composters, BSAAO industry members and other interested stakeholders

**Presented by:** US Food and Drug Administration, Idaho State Dept. of Agriculture, Oregon Dept. of Agriculture, and Washington State Dept. of Agriculture

**Funding Statement:** This training is supported by the Food and Drug Administration (FDA) of the U.S. Department of Health and Human Services (HHS) as part of a financial assistance award #1U2FFD007435 totaling \$6,106,186 with 100 percent funded by FDA/HHS. The contents are those of the author(s) and do not necessarily represent the official views of, nor an endorsement, by FDA/HHS, or the U.S. Government.
